

# Computational Thinking in Practice: Synergies for Learning with AI “AISynergies”

NPHZ-2025/10117  
08/2025 - 08/2027

Application 01/2025

# Consortium

Partners:

Coordinator: University of Turku (FI), Laakso, Mikko-Jussi; Parviainen, **Marika**

LT-Lithuanian Computer Society (LT-LIKS), Dagienė, **Valentina**

EE-University of Tartu (EE), Feklistova, **Lidia**

DK-Denmark's Association of Mathematics Teachers (DK), Eis-Hansen, **Mette**

IS-The Icelandic Computer Society (ISIP) (IS-Ský), Guðmundsdóttir, **Arnheiður**

LT-Klaipeda Gedminu progymnasium (LT), Jankauskienė, **Asta**

FI-Sarlinska skolan (FI), Aspegrén, **Nina**

# Project summary

Incorporating AI into computational thinking education

- Developing material with AI tools
- Creating material which teaches about AI awareness

Two main 4-day workshops

Two 2-day workshops

One-day local workshops

# Project results

Workshops for teachers

Material to be used with students (six languages)

- Bebras tasks in ViLLE
- Bebras tasks as cards

Presenting results in academic forums
